Arizona State University's Center for Applied Behavioral Health Policy (CABHP) in partnership with Arizona Department of Health Services (ADHS) is pleased to announce Innovations and Trends in Pain Management will be held October 30, 2015 at the Fairmont Scottsdale Princess Resort in Scottsdale, Arizona.

About the Conference

Chronic pain is the single leading cause of disability worldwide. The delivery of dynamic and evidenced-based pain management therapy capable of evolving with the rapid pace of research is essential. As a result of attending this conference, attendees will achieve the following educational goals:

- Identify new trends in pain management involving drug development, assessment, such as the use of biomarkers, research and patient-centered technology.
- Analyze current procedures for responsible opioid prescribing with particular emphasis on assessment, titration and preventing diversion.
- Appreciate the association between psychiatric illness and pain management, as well as the use of psychiatric medications to control neuropathic pain.
- Describe novel approaches to integrating complementary and alternative care practices into traditional treatment as part of the bio-psycho-social model of medicine.
- Evaluate the capacity of practices in medication-assisted treatment to optimize patient care while maintaining a global reduction in opioid abuse.

More than 150 health care professionals throughout Arizona and beyond are expected to participate in the conference in Scottsdale, Arizona, including; national experts, innovative leaders, educators, researchers, front-line clinicians, physicians, nurse practitioners, nurses, physician assistants, and pharmacists.

6.25 AMA PRA Category 1 Credit(s)™

Join fellow health care professionals to enhance your knowledge of the integrative approaches and policy issues affecting pain medicine while earning CME credits.

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of The University of Arizona College of Medicine at the Arizona Health Sciences Center and Arizona State University. The University of Arizona College of Medicine at the Arizona Health Sciences Center is accredited by the ACCME to provide continuing medical education for physicians.

The University of Arizona College of Medicine at the Arizona Health Sciences Center designates this live activity for a maximum of 6.25 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

We Proudly Welcome Our Keynotes:

- **Dr. Carmen Green** is the founding chair of the American Pain Society’s Special Interest Group for Pain Disparities as well as a committee member of the National Pain Strategy Task Force Oversight Committee at the National Institutes of Health. She is a Professor of Anesthesiology, Obstetrics and Gynecology, and Health Management and Policy at the University of Michigan School of Medicine. Her research focuses on disparities in access to health and pain care, pain assessment, management and outcomes, and health policy.

- **Dr. Michael Ashburn** is the director of the Penn Pain Medicine Center and co-director of the Palliative Care Program at the Abramson Cancer Center. Dr. Ashburn has served as a consultant to the Drug Enforcement Agency, Federal Bureau of Investigation, Department of Justice, and was a member of the Anesthesia and Life Saving Drugs Advisory Board for the Food and Drug Administration. Dr. Ashburn’s research interests include the conduct of clinical trials to evaluate the safety and efficacy of new pain medications and the development and implementation of patient-reported outcomes to improve the process of patient care.

- **Dr. Donald Abrams** is chief of the Hematology-Oncology Division at San Francisco General Hospital, an integrative oncologist at the UCSF Osher Center for Integrative Medicine and Professor of Clinical Medicine at the UCSF. He has conducted numerous clinical trials investigating conventional as well as complementary therapies in patients with HIV including therapeutic touch, Traditional Chinese Medicine interventions, medicinal mushrooms, medical marijuana and distant healing.
