“ICD-10-CM transition tools to mitigate the potential threat to patient safety, research, and hospital administration”

Thursday, November 19th
Noon - Drachman A114

Andrew D. Boyd, MD
Assistant Professor,
Biomedical and Health Information Sciences
University of Illinois at Chicago

Andy Boyd is an assistant professor in the department of Biomedical and Health Information Sciences. After completing his medical degree at University of Texas Southwestern Medical School, his postdoctoral work was in biomedical informatics at the University of Michigan under the mentorship of Prof. Brian Athey. His work included the NIH funded Michigan Clinical Research Collaboratory (MCRC), the state-funded Michigan Center for Biological Information (MCBI) and the DARPA-funded Virtual Soldier Project. He was on faculty at the University of Michigan in the Department of Psychiatry and a member of the Center for Computational Medicine and Biology and the University of Michigan Depression Center. He also worked for Cyberpulse, an electronic medical record company specializing in reports for cardiologists. He was a Research Assistant Professor in the department of Biomedical and Health Information Sciences for a few years.

Lunch will be provided - Please RSVP to ckenost@email.arizona.edu
